Defending the Culture of Life

FEATURING:

Work-Shops

Seminars

Pro-Life Training

Phill Kline's story of

perseverance and courage will lift up the heart of every person who hears him speak.

As seen on Fox news, in USA Today, the O'Reilly Factor, and other media outlets, Phill Kline is a real life David and Goliath story of how he took on the one billion dollar abortion industry.

Phill Kline was the first and only prosecutor ever to succeed in obtaining abortion records from Planned Parenthood and notorious late term abortionist George Tiller. Millions of dollars from the abortion industry poured into Kansas

to defeat his efforts. Yet the truth and Phill Kline's determination to enforce the law against the abortion industry somehow found a way.

During a time when the entire country thought that all we could do was wait for the next Supreme Court Justice to help overturn Roe, Phill Kline changed the course of the national battle forever by placing Planned Parenthood on the defensive by exposing the alleged crimes within their clinics.

Becky Brindle, programs coordinator for Students for Life of America. The mission of SFLA is to: educate pro-life college students about the issues of abortion, euthanasia, and infanticide; equip college pro-lifers with the training, skills and resources to be effective and successful; promote student activity to other local, college, and national groups.

John J. Jakubczyk is president of Life Educational Corporation and has been active in the pro-life movement since 1975. An attorney in private practice, John has represented pro-life individuals and organizations, defended sidewalk counselors and activists, and advocated for women exploited by abortion profiteers. John and his wife Petra are parents to eleven children.
